Deployed URL:

<https://codequest-notes.netlify.app/>

Detail-focused and design-oriented front-end developer with a strong foundation in web technologies and a growing focus on mobile app and game development. Holds a Certificate in Full-Stack Web Development and an Associate's degree in Information Technology, with a background in photography that brings a keen eye for visual detail and user-centered design. Skilled in HTML, CSS, React.js, TypeScript, and Bootstrap, with hands-on experience managing MongoDB databases and dynamic content with JSON and Markdown files. Creator of multiple portfolio projects, including ALU Tracker, CodeQuest, and AppFoundry. Currently expanding expertise in React Native and mobile-first development. Adept at problem-solving, continuous learning, and delivering clean, intuitive digital experiences.

Education

Washington University in St. Louis Jun 2024 – Nov 2024

Certificate in Full-Stack Web Development coding

Relevant coursework included concepts such as HTML, CSS, React, JavaScript, TypeScript, Node.js, GraphQL and Apollo, APIs, Bootstrap, Python, code testing, Git and GitHub, Render, MongoDB, Cypress, CircleCI, and even the MERN stack.

Ranken Technical College Jan 2018 – Dec 2019

Cum Laude Associates of Technology in IT

Relevant coursework included Windows 7 Certification, CompTIA A+ 901 and 902 (which included Windows 10), Cisco Networking, and Network Security.

Webster University Jun 2010 – Dec 2012

Experience

CSR - Challenge Unlimited Inc. Jan 2022 – May 2024

➤ Resolved a wide range of customer concerns efficiently, independently handling typical inquiries.

➤ Collaborated with managers, team-specific group chats, or other appropriate parties to address out-of-scope questions, unusual issues, or customer concerns that were difficult to understand or beyond my current knowledge.

➤ Escalated unresolved or complex cases by submitting detailed tickets or reports, ensuring accurate and timely resolution.
