Professional Summary

Detail-focused technical professional with a strong foundation in web technologies, structured data, and documentation-driven workflows. Holds a Certificate in Full-Stack Web Development and an Associate's degree in Information Technology. Experienced in working with structured JSON data, internal tools, and ticket-based systems, with a focus on accuracy, organization, and task completion. Well-suited for data-oriented, analytical, and operations-focused roles requiring minimal interruption and close attention to detail.

Core Competencies

- Data Accuracy & Validation
- Technical Documentation
- Task-Focused, Independent Work
- Time Management & Organization
- Process Adherence & Quality Control

Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript

Frameworks/Libraries: React, Node.js, Angular, React Router, SCSS/Sass

Data & APIs: JSON, REST APIs, MongoDB, Firestore, PostgreSQL, Mapbox GL

Tools: Git, GitHub, NPM, VS Code, ServiceNow, Netlify, Render, Firebase Console, Vite

Collaboration & Communication: Slack, Microsoft Teams, Zoom, Remote Collaboration, Async Documentation, Cross-Functional Communication

AI & Automation: AI-assisted development, debugging, refactoring, documentation, and learning

UI/UX: Responsive Design, Accessibility Basics, Mobile-First Layout, Cross-Browser Compatibility

Other: Markdown, Technical Documentation, Knowledge Base Architecture

Projects

Coding/IT Portfolio

Live: <https://it-dev-portfolio.netlify.app/>

Personal portfolio showcasing web development and IT projects built with React, Angular, TypeScript, Firebase, and Node.js, deployed via GitHub and Netlify.

Asphalt Legends Tracker

Live: <https://asphaltlegendsunitetracker.netlify.app/>

Fan-built multi-repository game database and in-game tracker using React, TypeScript, Node.js, MongoDB, Firebase, and Mapbox GL JS with modular front-end and backend architecture.

DevScriptStax

Live: <https://devscriptstax.netlify.app/>

Full-stack web development knowledge base built with React, Firebase, and SCSS featuring nested routing, lazy-loaded navigation, and a consistent cross-site design system.

NetNotes

Live: <https://netnotes.netlify.app/>

Cisco networking and IT certification reference built with React, Firebase, and React Router covering CCNA, CCNP, VoIP, and network security topics.

Steel & Shutter

Live: <https://steel-and-shutter.netlify.app/>

Automotive photography portfolio built with Angular, TypeScript, and SCSS showcasing professional vehicle inventory photography with responsive layout and continuous GitHub deployment.

Experience

Xcite Automotive – Senior Automotive Inventory Photographer

April 2026 – May 2026

- Photographed new and used vehicle inventory for car dealerships following structured workflows and quality standards.
- Verified vehicle readiness prior to photography sessions and coordinated with sales staff and porters to prioritize scheduling efficiently.
- Updated vehicle status records in the dealer management system to ensure accurate inventory tracking throughout the day.
- Attached buyers guides and window stickers to used vehicles following photography to maintain dealership compliance and lot readiness.
- Submitted completed dealership billing accurately by end of day following established invoicing procedures.

Inspiritec Inc. – Customer Service Representative

August 2025 – January 2026

- Supported service operations using internal systems, documentation, and ticket-based workflows.
- Researched and resolved issues by following established procedures and knowledge resources.
- Documented, tracked, and escalated cases to ensure accurate and timely resolution.

Challenge Unlimited Inc. – Customer Service Representative

January 2022 – April 2024

- Processed and documented service requests with a focus on accuracy and consistency.
- Followed established workflows to resolve standard issues and escalate complex cases.
- Maintained detailed records to support tracking, reporting, and quality assurance.

Intelliteach Inc. – Help Desk Analyst

April 2020 – January 2021

- Performed account maintenance tasks, including password resets and access verification.
- Assisted with document access and system navigation using enterprise platforms.
- Maintained accurate documentation using ServiceNow.

Dierbergs Markets Inc. – Clerk

July 2015 – March 2020

- Supported daily operational and inventory-related workflows across multiple departments.
- Followed established procedures to ensure accuracy, efficiency, and consistency.

Education

Washington University in St. Louis – (In Partnership with EdX)

Certificate – Full Stack Web Development, 2024

Ranken Technical College

Associate of Applied Science – Information Technology (Cum Laude), 2019

Webster University

Bachelor of Arts – Photography, 2012
